QUALITY & PERFECTION

BANS AEROSOL

LIGHTER GAS

#1515#

The universal Lighter Gas refill with a metal bottle. It is used to refill the gas of your cigarette lighter. It is available in different design. An injection type to refill general portable lighter. Compact unit for portability & maintenance and it is completely deodorized gas use.

BUTANE GAS

#1919#

We are offering a wide assortment of Butane Gas. Our products are tested rigorously under various quality tests in order to deliver a quality array. They are offered in the market in leak proof packaging. Moreover, they are available at reasonable rates. Used in various commercial applications such as, soldering and machinery cutting.

SNOW SPRAY

#1212#

Spray used in parties to make artificial snow like fall. It looks like snow fall when sprayed. Even colored snow sprays are available and snow spray fights are common. It is commonly used during Christmas, Birthday Parties & New Year Parties. Holi Color Snow Sprays which is available in different colors are occasionally used on Holi festivals by children.

PEPPER SPRAY

#1818#

It's a lachrymatory agent (a chemical compound that irritates the eyes to cause tears, pain, and even temporary blindness) that is used in riot control, crowd control, and personal self-defense, including defense against dogs and bears. It is a less lethal agent that may be harmful in rare cases.

SILICONE FREE SPRAY #6262#

Non-staining, colorless, non-toxic, silicon free compound formulated to provide multiple releases. It prevents sticking of parts in moulds & facilitates easy release. It doesn't transferred to the moulded parts. It's useful where post moulding operations such as painting, plating, embossing, hot-foil stamping, screen or pad printing are required.

SILICONE SPRAY #6161#

Aerosol formulation of silicone fluid propellents and additives on spraying. The fluid is deposited on the surface to which it is applied and thin film of silicone fluid is serviceable from (-49°C) to 200°C & 300°C. It possesses excellent lubricant oxidising and non-carbonising in nature. These properties enable the use of silicone spray as a mould release agent in the moulding operations of plastic & rubber.

METAL DEGREASING #6767#

Specialty cleaner cum degreaser for metal surfaces. It is a cold cleaning solvent based fluid, which dissolves in most waxes, lubricants, dirt, grime, carbon, silicones, tar, etc. It evaporates quickly and does not leave residue. Safe and efficient cleaner for various kinds of metal moulds. It quickly removes residues of release agents, protective coatings, deposits like oil, grease & soil and others.

MOLD/DIE PROTECTOR #6464#

Available in GREEN, RED & CLEAR provides positive protection by displacing moisture form metal surfaces and adhering tightly to the surface. Flows into & protects innermost cavities of molds & dies. Provides superior long & short term protection. Can be directly used over hot molds.

WAX COATING SPRAY #6565#

Primarily used for corrosion and rust prevention. It contains special corrosion resistant waxes and corrosion inhibitors dispersed in a corrosion preventive oil. It leaves a visible coating on the surface to which it is applied. It provides temporary corrosion protection and displacement of moisture from the surface of freshly machined components, bearings, moulds & dies, etc.

SILICONE EMULSION #999#

These emulsions are inert, heat stable, non-toxicity products, which suit many industrial applications where lubrication, gloss, antistatic, protective and release properties are advantageous. Most emulsions are non-ionic as they are compatible with either of the other two systems but depending on the application, cationic or anionic emulsions can be chosen.

SILICONE CREAM POLISH #444#

Highly versatile, easy to use, highly efficient polish in cream & liquid form, useful in removing dirt, ensuring a protective coating and a high gloss film. Used all over by automobiles, TV, Radio, Fan, Refrigeration, Kitchen Tiles, Kitchen Equipment, Furniture, sophisticated Machinery Manufacturers & Floor Polish. Silicone Cream Polish is easy to use and does not require extensive rubbing.

SILICONE GREASE #777#

It's a strong adhesive sealing & white transparent lubricant. Non-melting, constant consistency over wide temperature range upto 200°C. Non-toxic silicon grease for long term lubrication of stop-cocks & valve seals. Lubrication and protection of 'O' rings, rubber seals & plastic parts. The applications includes vacuum and pressure systems, valves, cocks, food processing equipment, chain and open gears, gasket, oil seals & conveyors.

KB-6 MULTI OIL SPRAY #6666#

Special penetrating spray, designed to provide 6 excellent features. It penetrates rusted/jammed assemblies, lubricates mechanisms, displaces moisture from metal surfaces, stops squeaks in moving parts and protects metal surfaces against corrosion. Easy disassembly of frozen, rusted/jammed parts. Cleaning, lubrication, whether protection & noise reduction of locks, hinges, chains, automotive assembly, guns & pistols.

ANTI-SPATTER SPRAY #6363#

It's a spatter release agent, effectively prevents the adhesion of welding spatter on coated surfaces. Easier, cleaner and more cost effective. Enhances life of MIGTIG and TAG tips. It applies on welding wheels & tips, welded surfaces where unsightly spatter build-up is not desired a-need to be post decorated, electrode holders without compromising on user safety.

CARBON REMOVER #7171#

Designed to effectively & safely remove dirt, grease & varnish. Simply spray on, allow to set for 15 minutes & flush with water. It's 100% safe & bio-degradable, non-corrosive & non-staining. Penetrates into the metal for excellent & highly economical de-greasing. It applies on carbon deposits from make-break contractors, relays, commutators, insulators, bus bars. Removes varnishes & adhesives at the time of over hauling.

SAFETY SOLVENT #7272#

No CFC's, non-flammable, non-conductive, non-corrosive, with ultra high di-electric strength, high KB value, fast-drying "on-line" cleaner & de-greaser. Leaves no sticky film, powdery or oily residues. Combination of least toxic, user & workplace friendly solvents. Provides powerful consistent cleaning power.

INSULATING VARNISH #7373#

Thoroughly penetrates into windings & coils and seals out dust and moisture. Designed to be used as a finishing coat over existing impregnating varnishes as well as to provide class-H insulation & protection on unprotected motor surfaces (slots, clamps, plates) so as to enhance the life and reliability of the system as a whole. Also available in green & clear colors.

ELECTRONIC CLEANER #4040#

Fully safe on plastics & metals. Fast cleaning, residue-less, low odor formulation, fully di-electric with mild flux removing action. Excellent "offline" cleaning and flushing action with least possibility of equipment damage.

ANTI-SPATTER GEL #555#

The most effective and economical Production Line Gel available today. Used for torch nozzles in manual operations. Non-flammable, non-toxic, Silicon Free, Odour-less, Convenient to use & has no wastage. Does not cause Porosity. One Dip gives more than 8 hour life.

TREADMILL BELT SPRAY #7575#

Makes the treadmill runs smoothly and not lethargic or jerky. Proper lubrication between the deck and the running belt is essential for good maintenance and years of use. Reducing the friction between the deck and belt reduces wear on the motor and motor controller board. It is recommend to lubricate your treadmill running belt every 40 hours of use or every three months.

CAR AIR FRESHNER #1313#

Sanitize the air in your environment and keep it fresh and fragrant throughout the day. It is ozone friendly since it doesn't contain CFC. Hence, it is totally safe for your health. These fresheners neutralize all the bad odours and leave the environment fragrant. The air freshener can be used in factory environments for industrial odour control. The air freshener are extremely sturdy and last much longer than conventional ones.

DASHBOARD SHINER #1414#

Specially formulated to clean, maintain beauty & protect vinyl, rubber & plastic surface in one easy step. Contains UV defense, helps protect surfaces from fading and cracking caused by damaging UV rays. It's an anti-static agent and reduce dust & dirt attraction, keeping dashboard, vinyl seats and tyres clean & shiny.

PAINT SPRAY #1010#

Used by many industries like Automobiles, White Goods, Handicrafts, Control Panels & Switch Gear manufacturers, Plastic Moulders etc. in their various shades of Cars, Bikes, Washing Machines and Refrigerators for Inplant and Outdoor touch-up purposes. Single coat application give a film thickness of 20 microns and being air drying Paint it touch dries in 3-5 minutes.

MULTI-PRODUCT SHINER #1111#

Give surfaces an "as new" natural look. Non-oily and formulated to help prevent fading and cracking. Revitalizes and enhances the appearance of all vinyl, rubber and plastic surfaces. Treat your products right with King multi-purpose shiner. It provides long-lasting, non-oily protection for both interior and exterior vinyl, plastic and rubber surfaces.

FOAM CLEANER #3030#

Designed to clean glass, plastic & other sensitive surfaces safely, quickly & effectively. It will not allow plastic to crack, yellow & age. Foam cleaner do not contain any toxic chemicals. Simply spray on, allow foam to collapse & wipe/wash off.

CAR WASH #1818#

The shampoo is made of premium quality ingredients and does not harm the paints of the vehicles and dries immediately and restores after cleaning. These shampoo can be used for cleaning alloy rims and rim covers also. Our range can also be used on all kinds of painted surface like scooters, bikes, refrigerators, furniture painted door and walls.

CAR POLISH #1717#

Leaves your auto body ultimately clean leaving no grounds of dust. It's a great shiner. It efficiently aids in maintain the auto body shine for a longer time-period as it acts as a protective coating. These shiners guard car surface from external factors like corrosion, sunlight, and pollution. These are even utilized for removing light oxidation and micro scratches. Oil & Wax Free Formulation.

CHAIN LUBRICANT #5050#

Highly effective lubricant that has good mechanical stability and can penetrate at low temperature into tight inaccessible areas. Offers great resistance to water and high temperature as it is highly tenacious. This solvent carrier gets evaporated and leaves behind an adhesive lubricating film, which provides protection from moisture, dust and corrosive environment.

About US

BANS GROUP of COMPANIES was established in the year 1983. Our founder late Mr. T.C. Bansal had laid foundation of these companies with the vision of giving latest technology and innovative products in cosmetics and aerosol industries. Further our CEO Mr. Girish Bansal (LLB & MBA Marketing) having more than 20 years of expertise in this domain, has taken Bans Group to the new heights and now it's a reputed name in India and abroad. Under his profound guidance, we have earned ourselves a position of repute by providing a range which meets various global standards with his team of loyal and hardworking professionals.

BANS AEROSOL Pvt. Ltd. established in the year 1983, is one of the leaders in manufacturing, exporting and supplying of silicone & allied products, anti-friction preparations, industrial maintenance aerosol products, perfumed and consumable aerosol products. We are an ISO 9001:2008 certified organisation and have won acclaim for manufacturing superlative products at affordable rates.

BANS INTERNATIONAL is the manufacturer and importer of Cosmetic and Pharmaceutical packaging since 2002. We specialize in developing market and sourcing High Quality packaging solutions. Our expertise is extensive, including packaging solutions for Cosmetics, Car Care, Aerosols, Pharmaceuticals, Home Care, Personal Care, Perfumes, Hotel Industry, etc. Product Packaging demands nothing less than the most qualified advice and quality of solution. The decision you make today can be crucial to your products success tomorrow.

BANS & COMPANY is a leading law firm that provides a spectrum of legal services, which include multinational public and private companies and other corporate entities. The firm has a dedicated team of professionals with the specific industry expertise, resources and commitment required to meet all client requirements.

Our innovative solutions will deliver optimum results for your products without changing the way you do things. The quality controllers ensure that the raw material is procured from reliable vendors and all the products are packaged using high grade of packaging material.
